

Docket No.: 30004631-03 (1509-222)Application No.: 09/977,494**REMARKS**

The title, as amended by the Examiner, has been changed because it was not in accordance with allowed method claims 1-18. The title has been amended to indicate the subject matter of the application is a method and system.

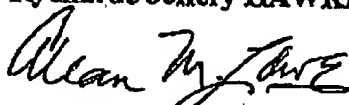

Dependent claims 21 and 23 have been amended so they are consistent with the claims upon which they previously depended. Hence, claim 21 is now a method claim that depends on method claim 1, rather than being a system claim that depends on method claim 1. Claim 23 is now a system claim that depends on system claim 19, rather than being a method claim that depends on system claim 19.

Entry of the amendment is in order because it does not have a material effect on substantive matters.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 08-2025 and please credit any excess fees to such deposit account.

Respectfully submitted,
